# FALL ARREST HARNESS CLIMAX 10 MAXIPRO

## FALL ARREST HARNESS CLIMAX 10 MAXIPRO

### Applications

The fall arrest harness Climax 10 MAXIPRO set comprises a work positioning belt and the Climax 10 BASIC PLUS harness. The resulting equipment acts as both a restraining system and a fall protection system. The harness set is specially designed and manufactured for use while working under conditions where there is some risk of falling from heights.

### Features

The fall arrest harness Climax 10 MAXIPRO is especially designed and manufactured to work in situations where there is a risk of falling from a height. (EN 361), with two anti fall anchoring points: dorsal (8mm D buckle) and chest fall arrest attachment point composed of two straps (A).

The belt allows the user to safely and securely anchor himself to the structure on which he is working to achieve full fall protection. The belt is made of polyester strap with a width of 45 mm. The waist belt contains the D-rings used to secure the user to the anchoring point.

Weight: 1,47kg.

### *CE Certification*

Standards: EN 361:2003 (harness)  
EN 358:1999 (belt)
