Telephone number +31 561 - 69 44 00 Telefax number +31 561 - 69 44 31

Product description

High quality spray to prevent adhesion of welding spatter on the welding mouth and the surroundings of the welding zone.

Applications

Welding guns Welding zones

Product characteristics

Non-flammable
Can be removed with water
Silicone-free
Non-corrosive
Slightly basic
Misty spray pattern
360° valve

Physical and Chemical Characteristics

Contents : 400 ml

Basis : Emulsifying Oil
Propellant : Inert propellant

VOC-content : 0% w/w

Colour : Transparent white

Relative density at 20°C : 1,0 g/ml Yield : 2,7 gr/sec. Vapour pressure at 20°C : 8 to 9 bar

Rest pressure : Approximately 3,0 bar

pH-value : 8,5 - 9,5

Usage

Before use, carefully read the directions on the packaging and act accordingly. Store frost-free.

Best processing temperature 5 to 35°C. Before use, shake the aerosol.

Spray the parts to be protected and execute the welding. Remove welding spatter with a steel brush. If desired, remove oil with water or a moist cloth.
