

STAR

Rechargeable work light and floodlight in one

STAR is designed to be the work light that does it all. The lamp is ergonomically designed to be used as a hand-held work light.

Due to the extremely powerful light output, STAR is also applicable for illumination of a larger working area, in spite of its small size compared to other floodlights. The handle is designed for direct mounting on the SCANGRIP TRIPOD.

Due to the flexible handle the STAR can stand in different positions to obtain the optimal lighting angle for a specific work task. The handle is also clickable in fixed position to serve as a hook for suspension. Using the powerful built-in magnet in the handle the STAR can be placed in flexible positions on any metallized surface.

- Extremely powerful illumination, up to 1000 lumen
- Rechargeable with up to 5h operation time
- Waterproof IP65
- Ergonomic design for a comfortable, firm grip
- Durable housing made of shock-resistant plastic material
- Built-in power bank with USB outlet
